PETITION TO THE WASHINGTON STATE BOARD OF HEALTH FOR ADOPTION OF A STATE ADMINISTRATIVE RULE TO CONVENE EMERGENCY MEETINGS OF HEALTH PRACTITIONERS TO ADDRESS TREATMENT OF COVID-19

Dear Board of Health:

We are in the midst of unprecedented times, which calls for unprecedented action. While the FDA has not yet approved any treatment for COVID-19, there are existing effective treatments being utilized by health practitioners throughout WA and the nation to successfully recover patients and to prevent severe disease.

Current laws and regulations as well as systemic divisions make it very difficult and at times impossible for these treatments to be openly and readily discussed and shared between the practitioners or to be learned about by the general public.

Waiting for a safe and effective vaccine before allowing life to return to normal is not rational or ethical. People are needlessly dying now. People need access to the existing treatments now. People need hope now. The mass collateral damage to the economy and personal lives is staggering and cannot be sustained. The Board of Health has the authority to convene an Emergency Committee of Health Practitioners in order to provide the way and means to exchange experiences and protocols and for this information to be made available to the public, as defined by law:

RCW 43.20.050

Powers and duties of state board of health—Rule making—Delegation of authority—Enforcement of rules.

(1) The state board of health shall provide a forum for the development of public health policy in Washington state. It is authorized to recommend to the secretary means for obtaining appropriate citizen and professional involvement in all public health policy formulation and other matters related to the powers and duties of the department. It is further empowered to hold hearings and explore ways to improve the health status of the citizenry.

In fulfilling its responsibilities under this subsection, the state board may create ad hoc committees or other such committees of limited duration as necessary.

(2) In order to protect public health, the state board of health shall:

(f) Adopt rules for the prevention and control of infectious and noninfectious diseases,

Committee to include: Medical and Naturopathic Doctors, Chiropractors, Integrative Medicine Doctors, Functional Medicine Doctors, and any other practitioners who have experience effectively treating COVID-19. Practitioners not selected for the committee shall be invited to submit protocols and case descriptions. Meetings shall be open to the public.

Time is critical.

We, the undersigned, respectfully request this petition be immediately considered.
